

OIL WENT OVER TOP YESTERDAY

Well on Burk Farm Flowed
About 35 Barrels in
15 Minutes.

When uncapped at 5:00 p. m. yesterday, the giant well on the Burk farm in 32-5-5 sent a stream of oil over the top of the derrick and continued to flow for 15 minutes, during which time the oil hit the crown block three times and went half way up the derrick twice.

During the 15 minute head it is estimated that 35 barrels of oil came from the well and when a test was made at eight o'clock this morning the hole stood 1,350 feet in oil.

Several men interested in the field were present when the cap was removed and saw the well perform. Several good photographs were taken while it was in action and will be on display as soon as the photographer can finish them.

B. F. Wood of Muskogee and Robert S. Ogilvy of Chicago president and vice president, respectively, of the Invaders Oil company were among those who were present. These gentlemen and the company they represent, own considerable acreage in the vicinity of the well and were here mainly to investigate personally the status of some of the adverse reports which have appeared in a few papers of the state which persist in their efforts to give the well and Ada field a black eye.

After seeing the oil gush over the top and continue to climb the derrick for 15 minutes the invaders' men declared that they were entirely satisfied with the showing and expressed their surprise that unfavorable reports should be printed by any paper. Before leaving the city today they closed a deal to take over some additional acreage and announced that they would begin operations on some of their holdings as soon as possible.

The well is to be uncapped again this afternoon and several oil men and other business men are at the well with the owners, to see it perform. As the well is to be put on the pump tomorrow, today will likely be the last opportunity to see it in action.

Dallas Boosters Spend Very Busy Hour in Ada Today

One hundred members of the Dallas chamber of commerce arrived here at 1:15 p. m. today and spent an hour in the city renewing friendships formed in other days and getting acquainted with the business men of Ada.

It was the annual trade tour of the business men of Dallas, which, starting last Monday, will close next Saturday, after the one hundred members of the party, representing more than four hundred business concerns of Dallas, have visited 73 of the principal cities of Southern Oklahoma and Northern Texas.

The party arrived on a special train via the Frisco. Detraining at the passenger station, they marched down Main street behind a fifty-piece band which accompanies them, halting in front of the Chamber of Commerce office, where Attorney Robert Winbush, speaking from an auto truck, delivered a brief address of welcome.

R. L. Winfrey of Dallas responded to the address of welcome, stressing briefly the importance of Dallas as a trade center and inviting the business men of Ada to get acquainted with the live wire business men of Dallas who were on hand to meet them.

Both addresses drew a great deal of applause, both from the Dallas men and the large crowd of Ada business men who made up the audience. When the speeches were finished the visitors mingled with the crowd and singled out the men with whom they wished to get acquainted.

Each of the Dallas men wore a ribbon on his hat, on which was printed his name and business, and each Ada business man who is a

State News

CUSHING—Motor races, horse races, ball games and other amusements will feature the Fourth of July celebration here, at which time the new Speedway Park will be formally opened.

PAWHUSKA—Merchants here will conduct their first trade trip May 18. The excursion of boosters will visit several towns in the trading territory of Pawhuska.

NOWATA—The annual banquet of the Nowata County Breeders' association will be held the night of May 21. The date has been advanced from that scheduled for May 14.

The great American problem these days is not to get the curtain stretchers crooked.

SEARCHING FOR JUDGE'S MONEY

Devereaux Spoke of Funds
in New York Bank
While Dying.

(By the Associated Press)

TULSA, May 17.—The search for the fortune which Judge John Devereaux was supposed to have possessed shortly before his death, which occurred under mysterious circumstances a week ago today turned to New York where J. P. Morgan and Company have been asked to find a safety deposit box said to have been held by the Judge in some Manhattan bank.

The revelation of a dying message, given by Judge Devereaux to one of his neighbors while his business and property were being discussed in his presence, lends weight to the theory held by his close friends here, that the hid his own securities and that they may have been sent to New York.

"New York, New York," is the feebly repeated whisper which the Judge breathed to Mrs. Juanita Morris, after he beckoned her to his side in the apartment, early last Tuesday morning.

Mrs. Morris, one of the two friends of the Judge who found him laying wounded and drugged in the hotel room of two women who claimed to be his nurses, was arguing with Mrs. Jesse James, one of the nurses accused of his murder, and who insisted that the safety deposit box in the bank contained no bonds, the dying man called Mrs. Morris to his bedside and repeated the name of the eastern city, but he was unable to make any further statement and lapsed into unconsciousness in a short time, according to Mrs. Morris.

TROOPS WANTED IN W. VA. BATTLE ZONE

(By the Associated Press)

WILLIAMSON, W. Va., May 17.—Preparations are being made here to anticipate any untoward activities on the Mingo fighting front next Thursday, May 19, the first anniversary of the battle of Matewan, in which ten persons were killed, including the mayor of the town and several detectives. Although open hostilities have practically ceased on the West Virginia-Kentucky border, where the industrial controversy has caused warfare, activities are increasing behind the battle lines, according to authorities here.

The state police have been stationed at strategic points throughout the fighting zone, and are ready for a renewal of the firing.

In the meantime officials of Mingo county, West Virginia have sent repeated petitions to Governor Morgan to urge that federal troops be sent into the district and martial law declared in the affected territory.

(By the Associated Press)

WILLIAMSON, W. Va., May 17.—Mingo county authorities today were waiting for a reply to their latest appeal to Governor Morgan asking that he urge the war department to send federal troops into the battle zone along West Virginia and Kentucky borders in this district. The appeal forwarded last night informed the executive that the situation was critical, adding that further outbreaks along the Tug river front were expected.

Kentucky national guardsmen on duty at points of vantage on the Kentucky side of the stream continued their search for persons suspected of having taken part in the battle.

Both addresses drew a great deal of applause, both from the Dallas men and the large crowd of Ada business men who made up the audience. When the speeches were finished the visitors mingled with the crowd and singled out the men with whom they wished to get acquainted.

Each of the Dallas men wore a ribbon on his hat, on which was printed his name and business, and each Ada business man who is a

(Continued on Page Two)

FRANKFORT, Ky., May 17.—Declaring he can and will preserve order on the Kentucky side of the West Virginia-Kentucky border, Governor Morrow today is awaiting a reply from Washington relative to his request last night for federal troops.

"I wish to make it plain," the governor said, "that the trouble is in West Virginia. We have peace officers and troops doing duty in Pike county, Kentucky, who can prevent outbreaks from coming over in Kentucky and shooting back across the border, but our troops cannot cross the border and prevent disorder in West Virginia."

DE-HORNING THE WILD BAVARIAN BULL IS NO SMALL PART OF GERMANY'S OBLIGATIONS

Seminole Indians Play Native Base Ball Game Monday

The Brown's Seminole Indian team of Wewoka, who were defeated by the local team in regular baseball Sunday, gave an exhibition of their native baseball at the Fair grounds park yesterday afternoon. The attendance was good and the Indians were in high spirits, putting every ounce of their energy into the game. There were very few spectators present who understood the game, but it was announced that the east side team won by a score of seven to four. The dress, yells and exhibitions of the Braves were like the olden times and the large crowd present could gather a good idea of the days when Indians ruled supreme.

TENSION SLACK IN THE POLISH REVOLT

(By the Associated Press)

LONDON, May 17.—Tension over the Polish revolt in Silesia seemed here today to have passed. Exchange of views on the subject is proceeding between London and Paris and there seems to be confidence that Premier Lloyd George and Premier Briand would reach an understanding when they meet. It appeared probable that the two premiers would hold a conference early next week. It is possible the discussion of Silesia will be brought before a full meeting of the supreme allied council, but no definite decision on this point had been reached here today.

Banquet to be Given at Elk's Club Rooms for Normal Seniors

The junior-senior banquet will be held at the Elk's Club rooms this evening in honor of the graduating senior class of the Normal. Much preparation has been made for this event and those in charge want to make it the best in history.

The Elks have been kind to the school to lend the students the use of their rooms and the students greatly appreciate it. The junior-senior banquet is an annual affair with the Normal school here.

Editor for Ambassador.

(By the Associated Press)
WASHINGTON, May 17.—Richard Washburn Child, the author and former editor of Collier's Weekly has been selected by President Harding for ambassador to Italy.

Mr. Child has been connected recently with the republican national committee and during last summer's campaign spent several months in President Harding's headquarters at Marion.

Now that they are preparing to make beer illegal as a medicine, we fall back on the possibility of having it declared a mineral water.

Last Minute Telegraph

Blair Gets Appointment.

(By the Associated Press)
WASHINGTON, May 17.—The senate finance committee ordered today a favorable report on the nomination of David H. Blair, of Winston-Salem, North Carolina, to be commissioner of internal revenue. The report was ordered without a roll call.

Price of Crude Lowered.

(By the Associated Press)
PITTSBURG, Pa., May 17.—Prices of different grades of crude oil were reduced from \$1.50 to \$1.25 a barrel, the principal oil purchasing agencies announced today. The price of Pennsylvania crude was not affected.

Shoe Companies Consolidate.

(By the Associated Press)
BOSTON, May 17.—The merger of the International Shoe company of St. Louis and the W. H. McElwain company of this city, shoe manufacturers, was announced today. It brings together companies whose combined sales aggregated one hundred thirty million dollars last year. A joint capital of forty million is said to be involved.

Bankers Arrested.

(By the Associated Press)
TUSCULA, Ill., May 17.—M. T. Quirk, president and his son, John Quirk, cashier of the Arcola State bank, at Arcola, eight miles from here, were arraigned today before Justice of the Peace J. C. Cutler, on charges of forgery, in connection with the closing of the bank yesterday, and after waiving preliminary examination, were bound over to the grand jury.

OKLAHOMA WEATHER.

Tonight and Wednesday partly cloudy in east portion. Probably local showers in west portion, rising temperature.

WOMAN FACES CHARGE OF MURDER OF BOY

(By the Associated Press)

DETROIT, Mich., May 17.—Mrs. Elizabeth Lewen, 58 years old, held at the woman's detention home since Saturday on a charge of abducting Max Earnest, six years old, faced a charge of murder today, following the finding last night of the boy's body. The lad had been strangled and the body thrown into a marsh on the east side where two boys found it while picking dandelions. Early today after he had questioned Mrs. Lewen several hours, James W. Inches, police commissioner, who took personal charge of the case, declared he was "thoroughly convinced that Mrs. Lewen killed the Earnest child."

The commissioner said the woman had admitted that she was in the vicinity of the marsh last Wednesday, the day Max disappeared while on his way home from school.

Normal School Will Hold Commencement Exercises Wed. Morn

The Commencement exercises of the graduating class of the Normal will be held in the Normal auditorium tomorrow morning, beginning at 10 o'clock, and promises to be the most interesting ever held by the school.

The class address will be delivered by Dr. Ira Hilton Jones of the A. & M. College of Stillwater, who is a well known and able speaker of the state. Other numbers will be given and those who come out will be well entertained. The management of the Normal urges all the citizens of Ada and all interested visitors to come out as a good attendance will be highly appreciated by the school.

SOUTHERN BAPTIST CONVENTION ADJOURNS

(By the Associated Press)

CHATTANOOGA, Tenn., May 17.—The Southern Baptist convention at its final session today held memorial services for two of its former vice presidents, who died in the last year. They were Honorable J. J. Darlington of Washington and Dr. J. Y. Jamerson of Atlanta, Georgia, who served in 1910 and 1907, respectively.

Today's session was one of the busiest on record. Matters crowded into it enabled the convention to adjourn 36 hours earlier than planned.

CONGRESSWOMAN MAKES MAIDEN SPEECH IN HOUSE

(By the Associated Press)

WASHINGTON, May 17.—Blushing like a bashful school girl Miss Alice Robertson of Oklahoma yesterday made her first speech in the house. She engaged in debate after Representative Mondell, republican government "had a little park down in Oklahoma" which it had been trying to get rid of for several years. It had been offered he said to Oklahoma, but Oklahomaans did not seem to want it, realizing that "so long as they may utilize the property and Uncle Sam pays the upkeep it is a very satisfactory arrangement."

Miss Robertson asked the name of the tract and when told it was Platt National Park, she inquired of Mr. Mondell if he knew how it had been named. He admitted he did not, so she told him it was named for the late Senator Platt of Connecticut, one of the best friends of not the very best friends of the Indians of Oklahoma ever had. The white haired woman representative delivered a brief speech in praise of Senator Platt and when she walked back to her seat was applauded by members of the house.

This mining business must be a powerfully contentious trade.

HIGH SCHOOL GIVES GRAND PROGRAM

Record-Breaking Attendance
Witnesses Grand
Review.

Appearing for the first time as an annual affair and the last time as organizations of the present school year, the side activities and departments of the Ada High school gave the High School Review and Style Show at the Normal auditorium last evening to a packed house.

Each number, each exhibition and part was received by the largest and one of the most appreciative audiences ever gathered in the Normal auditorium for any school affair. The students were at their best, put their hearts in the work and won the hearty applause of the spectators.

Many new features, witnessed for the first time in the city were given and others, well known but highly appreciated nevertheless, filled the program, making each minute interesting. Although the exhibition took about 2 hours and thirty minutes for showing, it was not tiresome as constant changes were made from one department, each number introducing a new phase of the school work.

The affair was such a great success, the attendance 100 per cent good and the interest manifested so great that it will probably be made an annual affair by the Ada High school. The one department to be specially mentioned was the style show. The girls are to be complimented on the good work they have accomplished during the past term.

WAR DEPARTMENT BEING CRITICIZED

Storm of Protest over the
Publication of Slack-
er's Names.

(By the Associated Press)

WASHINGTON, May 17.—The war department issued a statement today expressing surprise at the constant fire of drastic criticism which followed its action in publishing full lists of deserters from the draft as shown by the department's records. Despite the urgency of patriotic societies and relatives of men, who did their full duty and who in many cases gave up their lives in the service, that the slacker list be given out.

The statement said: "It is not insisted that the list should never have been published at all until the department was absolutely convinced that there appeared thereon the name of no man who actually rendered either naval or military service during the war."

"As a matter of fact the war department would have been entirely warranted in including in the public lists the names of men charged with desertion in the draft, the name of every registrant who failed to report for military service at the time and place set aside in the notice sent to him by his local board, whether or not he subsequently served honorably in the army, navy or marine corps in the United States, or military forces in the allied powers."

Under the law every person whose status is that of a deserter from the draft, within the terms of the above definition, is a deserter from the draft, regardless of any subsequent honorable service which he may have rendered. The department undertook gratuitously to check and recheck the records of the 489,000 names originally carried on the draft deserter list and reduced the list to 155,000, the statement said, and thus far but four cases have officially developed where names of men were wrongfully carried on the list. The department asserted that in three of these cases the claim is made that the men themselves were at least partially responsible.

Irving School Boys Cause Trouble; Lady Calls City Police

There seems to have been a little trouble by a few patrons of the Irving school, a deserter from the draft, within the terms of the above definition, is a deserter from the draft, regardless of any subsequent honorable service which he may have rendered. The department undertook gratuitously to check and recheck the records of the 489,000 names originally carried on the draft deserter list and reduced the list to 155,000, the statement said, and thus far but four cases have officially developed where names of men were wrongfully carried on the list. The department asserted that in three of these cases the claim is made that the men themselves were at least partially responsible.

It is stated in his letter that the boys were playing, as boys will, when a gentleman told them the police had been notified of their playing and that it would be well for them to leave. He further states that the lady, who had a son of her own, had called him to the house, so that the officers would not get him.

However such things are disagreeable and unpleasant and the writer is of the opinion that if the lady had asked the boys to make less noise they would have done so. This is the first time anything of this nature has ever happened and it is hoped that it will not occur again. The people of this school have always cooperated with each other for the welfare of the children.

Poles Ready to Retire.

(By the Associated Press)
OPPELN, Upper Silesia, May 17.—The Polish executive committee in Silesia has telegraphed to the inter-allied commission here, stating the insurgents are ready to retire sufficiently to insure immediate cessation of hostilities with Germany, provided the ground they abandon is occupied by allied and not by German troops. The Polish committee in its message admits the insurgents may have exceeded the limit of prudence in their actions.

AN INVITATION

To the Editor of the News:

Please extend a cordial invitation to the citizenship of Ada to attend the Commencement Exercises to be held at the Normal school tomorrow morning at 10:00 o'clock. We are very anxious to have a large representation of citizens present.

Dr. Ira Hilton Jones, Professor of Chemistry at the A. & M. College at Stillwater will deliver the Commencement address. Dr. Jones is one of the most capable scientists in the country; in addition, he is one of the ablest speakers in the entire southwest. Last year he was the head-liner on the Redpath-Horner chautauqua circuit, and will be with the Redpath-Horner people again this year. His eminence as a scientist and his ability as a speaker of rare power insure an excellent address—one that will be well worth hearing.

There will be fifty-eight graduates from the life diploma course, one from the Bachelor's Degree course and sixteen from the preparatory department. At the close of the summer session there will be another graduation which will probably bring the number of degree graduates up to four, and life diploma graduates up to eighty.

The faculty and the graduates will greatly appreciate the presence of all who are interested in education at this commencement tomorrow morning.

Respectfully,
A. LINSCHIED.

Entered at the postoffice at Ada, Oklahoma, as second class mail matter

Telephones: Business Office, 4. Editorial Dept., 307

WHAT IS OLD AGE?

The act of the Postmaster General, abolishing the compulsory retirement of postoffice employees at the age of 62 for women and 65 for men shows the new attitude toward age. It used to be that men and women were as a rule really old in their sixties. Recent experience, particularly in the war, has given striking proof of the vigor and effectiveness that may be found in the seventies and eighties.

That employees are incapacitated for useful service at the ages heretofore specified in the Postoffice Department is now merely a false tradition. To youth, the sixties are really old. To millions of their elders, the sixties are only the latter part of a vigorous middle age. A person is not old nowadays until he is too old to do his usual work, and that age limit, like the actual death limit, has been advanced remarkably within a generation or two.

Medical science has done much along this line. More sensible living has done much. So has more sensible thinking. The typical American now expects as a matter of course to be active and useful until he is about 70, and his continued activity with its attendant state of mind tends to keep him up, to that point or beyond. On the other hand, the retired man seldom lasts long. In America, at least, he usually feels that he has lived his life, and with nothing creative left to live for, he soon ceases to live.

GERMANY'S ONE FAIR OFFER

The irritation shown by France and England at the offer of German labor and materials for the reconstruction of the devastated areas in France seems unreasonable.

It is easily enough understood, as a human fact. France would naturally prefer to use her own unemployed labor for that purpose, and to stimulate her own lagging industries with orders for the requisite material; and England would gladly supply the material for a money consideration.

But there's the rub. The Allies themselves cannot undertake the project without a huge supply of money for that purpose, and Germany does not seem able to supply the money.

It is a significant illustration of the same old problem that has bobbed up at every step of the war settlement. The Allies want gold, and there is not enough gold in Germany, nor in all the world, to satisfy their desires. If Germany is to pay adequately, she must pay primarily in goods or services, just as the Allies must if they are to repay their debt to the United States. Here is a case where Germany, after long evasion, has made an apparently sincere offer. How can the Allies afford to turn it down?

Admittedly such an arrangement would help German industry to get on its feet and would be a big step in the restoration of Germany's foreign trade. But what hope is there of Germany ever paying her war obligations to the Allies, and of the Allies accordingly meeting their own war obligations, unless Germany is enabled to earn the means of payment by rebuilding her industry and trade? How can the Allies keep Germany crippled without crippling themselves.

The federal prohibition commissioner rules that no doctor may prescribe for a patient at one time more than 4 7-8 gallons of beer or three gallons of wine. That is surely enough either to make a sick man well or a well man sick.

"Judging from recent experience of the railroads, the most effective way to put the liquor traffic out of business would be to try and operate it under government control," says life.

Gardeners are told to have the surface of the soil frequently stirred and this is attended to for them by the boys who run across the garden plot after their baseballs.

Seems queer that a lot of these people who are able to save billions in managing the railroads and the industries are still working for such low pay themselves.

Meanest man yet was reported the other day. He is a fellow who would not let his boy mow the lawn because it gave him such a vigorous appetite.

The Girl Next Door says she's opposed to the More Daylight plain since it delays the hour of dusk and hasteneth the moment of parting.

Do you remember the old-fashioned drug store that sold drugs instead of safety razors, hammocks, golf balls, toys and quick lunch?

French slogan—"German ducats!" German slogan—"Germans, duck it!"

The Evening News of the Press

Miami News: If Henry Ford hit the railroads it is to be hoped that each train will be equipped with a self-starter and shock absorbers.

Shawnee News: John Fields is already beginning to fret about this year's corn crop. What's the use when it is pretty nearly an accident when you get a corn crop anyway?

Okemah Ledger: Quite a number of Oklahoma City job printing plants are closed because of a strike of pressmen who are demanding that 44 hours constitute a week's work. The average country editor finds 90 to 100 hour week too short to accomplish all he has to do.

Capper's Weekly: Among those opposing daylight wasting in Kansas City are all the women's clubs, organized labor, the street car men and most of the industries. The Kansas City newspapers speak of daylight saving as doomed. It always is when the people get a whack at it.

Oklahoma Federationist: The wage-workers are finding it difficult to follow the various brands of advice given them so freely these days. A few months ago the cry was produce more and save more. With millions out of employment we are now told to buy more. The dispensers of free advice, however, fail to say how the workers can spend more when many have no job and when the organized employment interests are engaged in a drive to reduce wages.

GO TO THEATRE

At the McSwain
Two fat men have prepared a rare laughing treat for you at the McSwain Theatre today and tomorrow. One of them is Roscoe Arbuckle, the famous heavy weight screen star; the other is Irvin S. Cobb, the well known Saturday evening Post humorist. Cobb wrote "The Life of the Party" which has been transformed to the screen as "Fatty" Arbuckle's first full length feature picture. It's a laughing hit from start to finish.
Come and enjoy the fun.

At the American
Domestic difficulties and marital mishaps have long been a favorite subject with the men who make the novel and the drama. Big moments in the home life of a man or woman always have a popular appeal. Things that mirror their own ideas and emotions catch the fancy of the average theatre-goer.

Such a drama of realism is "Know Your Men," a William Fox production in which Pearl White is starred and which will be the feature attraction at the American Theatre next Thursday. Paul H. Sloane, who pictured "Over the Hill" for the screen, is responsible for this intensely interesting play which contains many little touches such as have caused "Over the Hill" to enjoy a long and successful run on Broadway, New York City.

Miss White enacts the role of Ellen Schuyler, a wealthy girl. With the financial ruin of her father and desertion by the man she loves, her fortune is also wiped out. In gratitude to another man who sticks by her, she wed him. But smoldering in her heart is her first love, that needs only the reappearance of the man to flame anew.

When this occurs comes another tragedy, for Ellen is turned from her home when she confesses to her husband that she still loves this man. Still more drama follows when her old sweetheart wishes her to return to her husband while divorce proceedings are pending. The last blow brings to Ellen a realization of her husband's true worth and a reconciliation follows.

Notice
The Cemetery Association will hold a meeting in Mrs. Brown's office on Wednesday of this week.

"SWAMP CHILL TONIC DOES THE WORK!"

Arkansas Merchant Highly Praises Famous Old Remedy

J. W. Mustain, Dealer in General Merchandise, Old Grand Glaize, Ark., sells a lot of Swamp Chill and Fever Tonic. The reason he sells a lot is expressed in a letter he recently wrote us, which says: "Swamp Chill Tonic sure does the work. I certainly want to thank you for your fair dealing."

John C. Rogers, Center, Tex., says: "I have sold your Swamp Chill Tonic for years and it is my favorite tonic. I always recommend it, because of its fine laxative properties."

Dealer C. E. Miller, Bernice, La., says: "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill Tonic to one of any other kind. After a customer has used it once he or she will use no other kind."

Thousands of other dealers in many different towns and cities strongly recommend Swamp Chill Tonic to their customers as the very best malaria remedy on the market. 60 cents a bottle—get one today.

Dallas Boosters Spend Very Busy Hour in Ada Today

(Continued from Page 1)
member of the Chamber of Commerce had a tag on the lapel of his coat, giving his name and business, and the arrangement was mutually beneficial in helping members of the two parties to find persons they desired to meet.
After spending an hour in the city, the visitors continued on their way to Coalgate, where the next stop will be made.

Charters Issued

Eisenberg Cigar Co., Miami, J. A. Robinson, B. A. White, R. H. Eisenberg, Miami, Capital \$5,000.

BATTLE FLAGS WILL BE PUT ON EXHIBITION AT CAPITOL

(By the Associated Press)
OKLAHOMA CITY, Okla., May 14.—Decorated battle flags and colors carried by organizations composed in whole or in part of Oklahoma troops who served in any arm of the land or naval forces during the world war or any other war will be preserved and placed in the mail galleries of the state capitol, under a bill passed by the extraordinary session of the legislature.

For the purpose of carrying out the provision the sum of \$1,500 was appropriated to build suitable cases in which to preserve these flags.

The bill declares that this provision is made that "these priceless" relics of the heroic service of Oklahoma loyal sons in the greatest war of all times may be open to public view as a perpetual reminder of that spirit of service and sacrifice and to serve as a lesson of loyalty and love of liberty which Oklahoma's courageous sons demonstrated so proudly on the historic battlefields of Europe."

"HOT" STORAGE MAY TAKE PLACE OF "COLD" STORAGE

MORGANTOWN, W. Va., May 17.—"Hot" storage as opposed to "cold" storage for many things affected by insects, but not by heat, may be realized soon if the experiments of Professor L. M. Peairs, of the department of entomology of the University of West Virginia prove entirely satisfactory. Professor Peairs has met with a great degree of success in showing the practicability of hot storage for such articles as carpets, clothing, particularly woolens and furs, as well as cereals, dried fruit products and other materials unaffected by dry heat.

Professor Peairs has used grain and carpet beetles and other insects of a similar nature in demonstrating that they do not develop at a constant temperature of 100 degrees Fahrenheit, and in some cases at 95 degrees. Even such forms of insect life as could endure higher temperatures could not survive a constant temperature of from 95 to 100 degrees he said. Thus, he has fore they got educated.

concluded that hot storage with a uniform and constant temperature of 100 degrees would prove more effective than cold storage in many cases.

Sugar Output Is Short.

(By the Associated Press)

HONOLULU, T. H., April 2.—(Delayed)—Hawaii's output of sugar for 1921 is behind schedule, according to experts in sugar circles and steamship men whose business it is to transport the raw product to the mainland. On the first of April the Hawaiian sugar output was 100,000 tons behind the shipping schedule of the same date last year, according to estimates.

The winter pineapple pack also is below the usual figure and the steamship companies are anticipating heavy congestion when the sugar shipments begin to pick up and the big pineapple season gets into full swing.

But, Mr. Edison, if they are ignoramuses after going through school imagine what they were before they got educated.

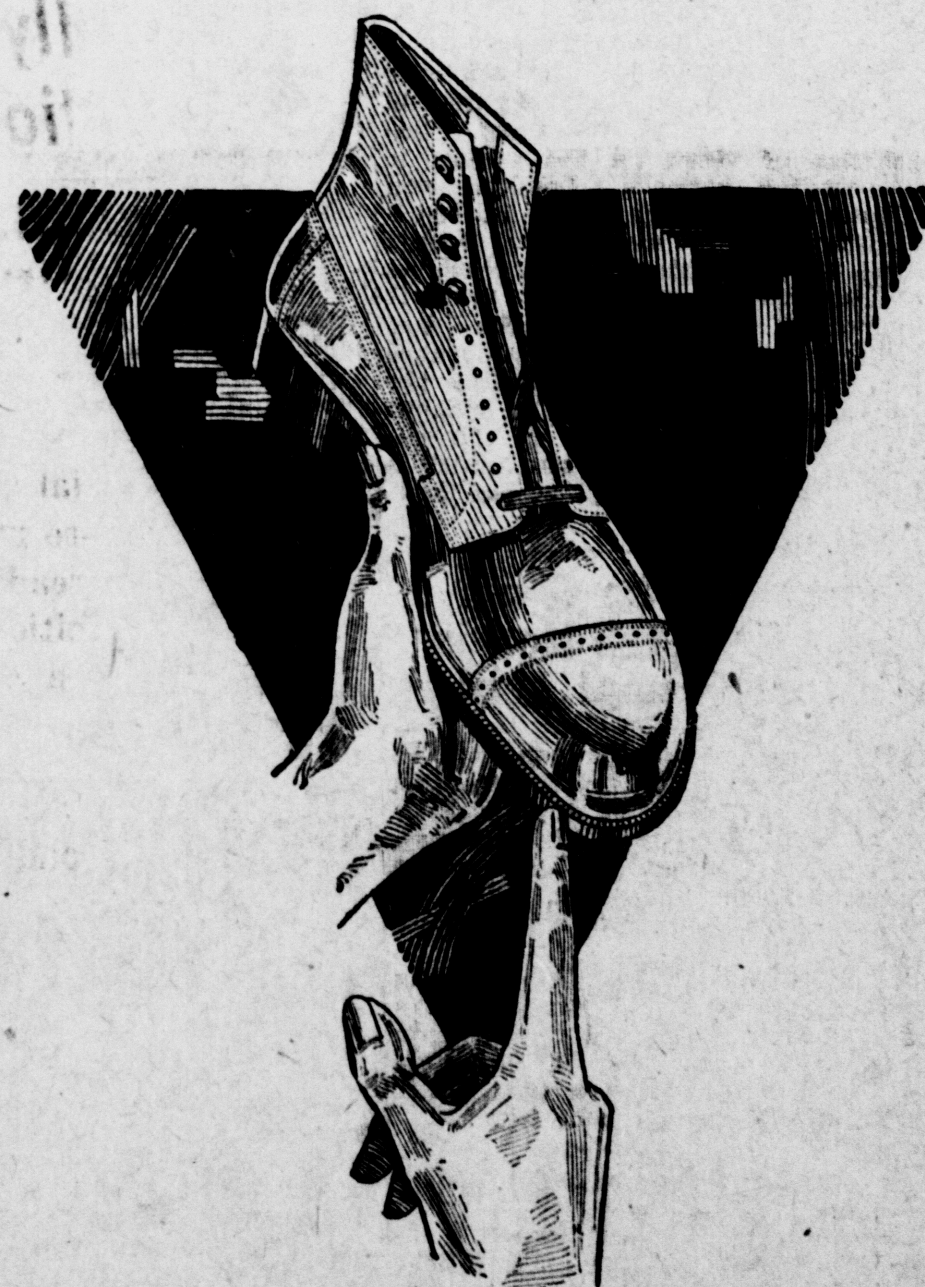

COURT OF HONOR TO BE BUILT FOR WAR HEROES

(By the Associated Press)

URBANA, Ill., May 17.—As a memorial to the 173 men from the University of Illinois who lost their lives in the world war, a Court of Honor will be built in the new athletic stadium to be built with a \$1,500,000 fund now being raised. There will be 173 columns in the court—one for each of the university's heroes.

Already various campus organizations have sponsored more than half of the columns, pledging \$1,000 each as their contribution to the memorial. Those organizations which lost men during the war will dedicate their column to the memory of their own soldier dead.

One of the unique sponsors of a column is the Field Artillery Regiment, R. O. T. C., composed of men from many organizations and some from none at all. The regiment plans to dedicate its column to some former university artilleryman who was not a member of any camp or organization.

Edmond "Foot Fitters" Fit All Feet

Here is the biggest selling single style in the world. It's our "Foot Fitter" No. 1—known all over the world as "Tom"! These shoes fit the feet all over like the paper on a wall. They fit roomily in the forepart and firmly over the instep and in the instep arch

"FOOT-FITTERS" fit snugly at the heel seat. They hug without squeezing. No pinching! They give the foot a firm tread and the chance of flexing naturally in walking. They "support the foot in the arch like a doctor's bandage".

Beyond My Window.
Beyond my window in the night
Is but a drab inglorious street.
Yet there the frost and clean star-
light,
As over Warwick woods are
sweet.

The crocus works among the mold
As eagerly as those that crown.
The Warwick spring in flame and
gold.

And when the tramway down the
hill
Across the cobbles moans and
rings.
There is about my window sill
The tumult of a thousand wings.

—John Drinkwater.

Mrs. Harmon Eby, who has been
visiting her parents at Dorchester,
Texas, returned to her home here
yesterday after a ten day absence.
She was accompanied by her little
sister and brother, Alva and Jack
Clary, who will visit in Ada for a
short while.

M. J. Norrell will be among the
Dallas boosters to visit the city
today. His sister and brother live
at this place, Mrs. Lura Skinner
and Paul V. Norrell. He is heading
a wholesale merchants organization
of that city.

Mr. and Mrs. A. C. Price and
daughter, Mary, who have been in
the city for the past week visit-
ing Mr. and Mrs. C. D. Price, re-
turned to their home in Denton,
Texas yesterday.

Miss Nola Wilbanks of Lamar,
Okla., arrived in the city yesterday
to spend a few days visiting her
friend, Miss Inez Bement, and oth-
er friends who are attending the
Normal here.

Miss Doris Sandusky, who has
been attending the Normal for the
past school year, will leave this
week for her home in Morris. She
will teach at that place next year.

Miss Nell McLachlan is visiting
her sister, Mrs. Leo Bell, in Sedan,
Kan., this week.

Misses Jewell and Jennie Rich-
ardson of Allen were in the city
yesterday visiting friends.

J. R. Bingham of West 6th street
is suffering with a severe attack
of lumbago.

Miss Peggie Davis of Chickasha
is visiting her friends, Misses Na-
oma Coon and Bell Bronaugh, this
week.

Miss Anna Smith of Wirt, Okla.,
is returning to her home at that
place after attending a successful
term at the Normal.

Woody Crowder who has been in
the city for several days visiting
friends left today for his home in
Tishomingo.

Mr. and Mrs. K. G. Allen left
this morning for their home in
Sherman, Texas, after spending sev-
eral days here visiting.

Mrs. O. H. Jenkins of this
city and Lillie Horton of Center,
have just returned to their home
at that place after a visit with a
relative at Lehigh.

Miss Gladys Kerns of Oklahoma
City was in the city over the week-
end visiting relatives and friends.
She returned to her home at that
place yesterday afternoon.

Announcements have been re-
ceived in the city stating that Otis
Lindsey had been married to Miss
Florence Marie Wilsey of Denver,
Colo., on May 8. He is well known
in this city.

CHANDLER AUTOMOBILES

OIL WENT OVER TOP YESTERDAY

Well on Burk Farm Flowed About 35 Barrels in 15 Minutes.

When uncapped at 5:00 p. m. yesterday, the giant well on the Burk farm in 32-5-5 sent a stream of oil over the top of the derrick and continued to flow for 15 minutes during which time the oil hit the crown block three times and went half way up the derrick twice. During the 15 minute head it is estimated that 35 barrels of oil came from the well and when a test was made at eight o'clock this morning the hole stood 1,350 feet in oil. Several prominent oil men and a few local men interested in the field were present when the cap was removed and saw the well perform. Several good photographs were taken while it was in action and will be on display as soon as the photographer can finish them. B. F. Wood of Muskogee and Robert S. Ogilvy of Chicago president and vice president, respectively, of the Invaders Oil company were among those who were present. These gentlemen and the company they represent, own considerable acreage in the vicinity of the well and were here mainly to investigate personally the status of some of the adverse reports which have appeared in a few papers of the state which persist in their efforts to give the well and Ada field a black eye. After seeing the oil gush over the top and continue to flow for 15 minutes the invaders' men declared that they were entirely satisfied with the showing and expressed their surprise that unfavorable reports should be printed by any paper. Before leaving the city today they closed a deal to take over some additional acreage and announced that they would begin operations on some of their holdings as soon as possible. The well is to be uncapped again this afternoon and several oil men and other business men are at the well with the owners, to see it perform. As the well is to be put on the pump tomorrow, today will likely be the last opportunity to see it in action.

Dallas Boosters Spend Very Busy Hour in Ada Today

One hundred members of the Dallas chamber of commerce arrived here at 1:15 p. m. today and spent an hour in the city renewing friendships formed in other days and getting acquainted with the business men of Ada. It was the annual trade tour of the business men of Dallas, which, starting last Monday, will close next Saturday, after the one hundred members of the party, representing more than four hundred business concerns of Dallas, have visited 73 of the principal cities of Southern Oklahoma and Northern Texas. The party arrived on a special train via the Frisco, detraining at the passenger station, they marched down Main street behind a fifty-piece band which accompanied them, halting in front of the Chamber of Commerce office, where Attorney Robert Wimbish, speaking from an auto truck, delivered a brief address of welcome. R. L. Winfrey of Dallas responded to the address of welcome, stressing briefly the importance of Dallas as a trade center and inviting the business men of Ada to get acquainted with the live wire business men of Dallas who were on hand to assist them. Both addresses drew a great deal of applause, both from the Dallas men and the large crowd of Ada business men who made up the audience. When the speeches were finished the visitors mingled with the crowd and singled out the men with whom they wished to get acquainted. Each of the Dallas men wore a ribbon on his hat, on which was printed his name and business, and each Ada business man who is a

State News

CUSHING—Motor races, horse races, ball games and other amusements will feature the Fourth of July celebration here, at which time the new Speedway Park will be formally opened. PAWHUSKA—Merchants here will conduct their first trade trip May 18. The excursion of boosters will visit several towns in the trading territory of Pawhuska. NOWATA—The annual banquet of the Nowata County Breeders' association will be held the night of May 21. The date has been advanced from that scheduled for May 14. The great American problem these days is not to get the curtain stretchers crooked.

SEARCHING FOR JUDGE'S MONEY

Devereaux Spoke of Funds in New York Bank While Dying.

(By the Associated Press) TULSA, May 17.—The search for the fortune which Judge John Devereaux was supposed to have possessed shortly before his death, which occurred under mysterious circumstances a week ago today turned to New York where J. P. Morgan and Company have been said to find a safety deposit box said to have been held by the Judge in some Manhattan bank. The revelation of a dying message, given by Judge Devereaux to one of his neighbors while his business and property were being discussed in his presence, lends weight to the theory held by his close friends here, that the hid his own securities and that they may have been sent to New York. "New York, New York," is the feebly repeated whisper which the Judge breathed to Mrs. Juanita Morris, after he beckoned her to his side in the apartment, early last Tuesday morning. Mrs. Morris, one of the two friends of the Judge who found him laying wounded and dragged in the hotel room of two women who claimed to be his nurses, was arguing with Mrs. Jesse James, one of the nurses accused of his murder, and who insisted that the safety deposit box in the bank contained no bonds, the dying man called Mrs. Morris to his bedside and repeated the name of the eastern city, but he was unable to make any further statement and lapsed into unconsciousness in a short time, according to Mrs. Morris.

TROOPS WANTED IN W. VA. BATTLE ZONE

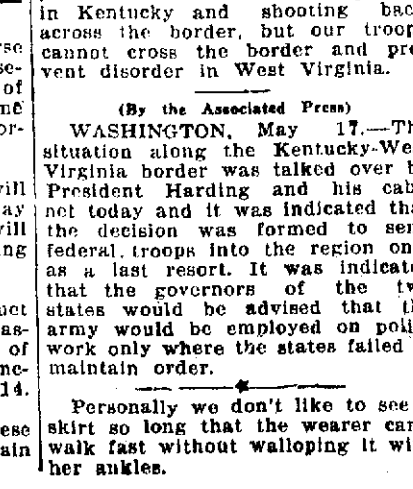

(By the Associated Press) WILLIAMSON, W. Va., May 17.—Preparations are being made here to anticipate any untoward activities on the Mingo fighting front next Thursday, May 19, the first anniversary of the battle of Matewan, in which ten persons were killed, including the mayor of the town and several detectives. Although open hostilities have practically ceased on the West Virginia-Kentucky border, where the industrial controversy has caused warfare, activities are increasing behind the battle lines, according to authorities here. The state police have been stationed at strategic points throughout the fighting zone, and are ready for a renewal of the fighting. In the meantime officials of Mingo county, West Virginia have sent repeated petitions to Governor Morgan to urge that federal troops be sent into the district and martial law declared in the affected territory.

(By the Associated Press) WILLIAMSON, W. Va., May 17.—Mingo county authorities today were waiting for a reply to their latest appeal to Governor Morgan asking that he urge the war department to send federal troops into the battle zone along West Virginia and Kentucky borders in this district. The appeal forwarded last night informed the executive that the situation was critical, adding that further outbreaks along the Tug river front were expected. Kentucky national guardsmen on duty at points of vantage on the Kentucky side of the stream continuing their search for persons suspected of having taken part in the battle.

(By the Associated Press) FRANKFORT, Ky., May 17.—Declaring he can and will preserve order on the Kentucky side of the West Virginia-Kentucky border, Governor Morrow today is awaiting a reply from Washington relative to his request last night for federal troops. "I wish to make it plain," the governor said, "that the trouble is in West Virginia. We have peace officers and troops doing duty in Pike county, Kentucky, who can prevent outlaws from coming over in Kentucky and shooting back across the border, but our troops cannot cross the border and prevent disorder in West Virginia."

(By the Associated Press) WASHINGTON, May 17.—The situation along the Kentucky-West Virginia border was talked over by President Harding and his cabinet today and it was indicated that the decision was formed to send federal troops into the region only as a last resort. It was indicated that the governors of the two states would be advised that the army would be employed on police work only where the states failed to maintain order. Personally we don't like to see a skirt so long that the wearer can't walk back without walloping it with her ankles.

DE-HORNING THE WILD BAVARIAN BULL IS NO SMALL PART OF GERMANY'S OBLIGATIONS

DE-HORNING THE WILD BAVARIAN BULL IS NO SMALL PART OF GERMANY'S OBLIGATIONS

Seminole Indians Play Native Base Ball Game Monday

The Brown's Seminole Indian team of Wewoka, who were defeated by the local team in regular baseball Sunday, gave an exhibition of their native baseball at the Fair grounds park yesterday afternoon. The attendance was good and the Indians were in high spirits, putting every ounce of their energy into the game. There were very few spectators present who understood the game, but it was announced that the east side team won by a score of seven to four. The dress, yell, and exhibitions of the Braves were like the olden times and the large crowd present could gather a good idea of the days when Indians ruled supreme.

TENSION SLACK IN THE POLISH REVOLT

(By the Associated Press) LONDON, May 17.—Tension over the Polish revolt in Silesia seemed here today to have passed. Exchange of views on the subject is proceeding between London and Paris and there seems to be confidence that Premier Lloyd George and Premier Briand would reach an understanding when they meet. It appeared probable that the two premiers would hold a conference early next week. It is possible the discussion of Silesia will be brought before a full meeting of the supreme allied council, but no definite decision on this point had been reached here today.

Banquet to be Given at Elk's Club Rooms for Normal Seniors

The junior-senior banquet will be held at the Elk's Club rooms this evening in honor of the graduating senior class of the Normal. Much preparation has been made for this event and those in charge want to make it the best in history. The Elks have been kind to the school to lend the students the use of their rooms and the students greatly appreciate it. The junior-senior banquet is an annual affair with the Normal school here. Editor for Ambassador.

OKLAHOMA WEATHER.

Tonight and Wednesday partly cloudy in east portion. Probably local showers in west portion, rising temperature.

Last Minute Telegraph

Blair Gets Appointment. (By the Associated Press) WASHINGTON, May 17.—The senate finance committee ordered today a favorable report on the nomination of David H. Blair, of Winston-Salem, North Carolina, to be commissioner of internal revenue. The report was ordered without a roll call. Price of Crude Lowered. (By the Associated Press) PITTSBURG, Pa., May 17.—Prices of different grades of crude oil were reduced from \$1.50 to \$1.25 a barrel, the principal oil purchasing agencies announced today. The price of Pennsylvania crude was not affected.

Shoe Companies Consolidate.

(By the Associated Press) BOSTON, May 17.—The merger of the International Shoe company of St. Louis and the W. H. McElwain company of this city, shoe manufacturers, was announced today. It brings together companies whose combined sales aggregated one hundred thirty million dollars last year. A joint capital of forty million is said to be involved.

Bankers Arrested.

(By the Associated Press) TUSCORA, Ill., May 17.—M. T. Quirk, president and his son, John Quirk, cashier of the Arcola State bank, at Arcola, eight miles from here, were arraigned today before Justice of the Peace J. C. Cutler, on charges of forgery, in connection with the closing of the bank yesterday, and after waiving preliminary examination, were bound over to the grand jury.

WOMAN FACES CHARGE OF MURDER OF BOY

(By the Associated Press) DETROIT, Mich., May 17.—Mrs. Elizabeth Lewen, 58 years old, held at the woman's detention home since Saturday on a charge of abducting Max Earnest, six years old, faced a charge of murder today, following the finding last night of the boy's body. The lad had been strangled and the body thrown into a marsh on the east side where two boys found it while picking dandelions. Early today after he had questioned Mrs. Lewen several hours, James W. Inches, police commissioner, who took personal charge of the case, declared that Mrs. Lewen killed the "earnest child." The commissioner said the woman had admitted that she was in the vicinity of the marsh last Wednesday the day Max disappeared while on his way home from school. This mining business must be a powerfully contentious trade.

Normal School Will Hold Commencement Exercises Wed. Morn

The Commencement exercises of the graduating class of the Normal will be held in the Normal auditorium tomorrow morning, beginning at 10 o'clock, and promises to be the most interesting ever held by the school. The class address will be delivered by Dr. Ira Hilton Jones of the A. & M. College of Stillwater, who is a well known and able speaker of the state. Other numbers will be given and those who come out will be well entertained. The management of the Normal urges all the citizens of Ada and all interested visitors to come out as a good attendance will be highly appreciated by the school.

SOUTHERN BAPTIST CONVENTION ADJOURNS

(By the Associated Press) CHATTANOOGA, Tenn., May 17.—The Southern Baptist convention at its final session today held memorial services for two of its former vice presidents, who died in the last year. They were Honorable J. J. Darlington of Washington and Dr. J. Y. Jamerson of Atlanta, Georgia, who served in 1910 and 1907, respectively. Today's session was one of the busiest on record. Matters crowded in to it enabled the convention to adjourn 36 hours earlier than planned.

CONGRESSWOMAN MAKES MAIDEN SPEECH IN HOUSE

(By the Associated Press) WASHINGTON, May 17.—Blushing like a bashful school girl Miss Alice Robertson of Oklahoma yesterday made her first speech in the house. She engaged in debate after Representative Mondell, republican leader, had declared the federal government "had a little park down in Oklahoma" which it had been trying to get rid of for several years. It had been offered he said to Oklahoma, but Oklahomans did not seem to want it, realizing that "so long as they may utilize the property and Uncle Sam pays the upkeep it is a very satisfactory arrangement." Miss Robertson asked the name of the tract and when told it was Platt National Park, she inquired of Mr. Mondell if he knew how it had been named. He admitted he did not, so she told him it was named for the late Senator Platt of Connecticut, one of the best friends, she said, of the Indians of Oklahoma ever had. The white haired woman representative delivered a brief speech in praise of Senator Platt and when she walked back to her seat was applauded by members of the house.

HIGH SCHOOL GIVES GRAND PROGRAM

Record-Breaking Attendance Witnesses Grand Review.

Appearing for the first time as an annual affair and the last time as organizations of the present school year, the side activities and departments of the Ada High school gave the High School Review and Style Show at the Normal auditorium last evening to a packed house. Each number, each exhibition and part was received by the largest and one of the most appreciative audiences ever gathered in the Normal auditorium for any school affair. The students were at their best, put their hearts in the work and won the hearty applause of the spectators. Many new features, witnessed for the first time in the city were given and others, well known but highly appreciated nevertheless, filled the program, making each minute interesting. Although the exhibition took about 2 hours and thirty minutes for showing, it was not tiresome as constant changes were made from one department, each number introducing a new phase of the school work. The affair was such a great success, the attendance 100 per cent good and the interest manifested so great that it will probably be made an annual affair by the Ada High school. The one department to be specially mentioned was the style show. The girls are to be complimented on the good work they have accomplished during the past term.

OFFICERS IN PURSUIT OF DIAMOND THIEVES

(By the Associated Press) OKMULGEE, May 17.—C. Shipman one of the alleged bandits who last night shot officer Robert Burren to death and wounded officer M. E. Spence, following a robbery, was captured at Holdenville, Oklahoma, this afternoon by a posse of Okmulgee citizens and officers. The second bandit and a woman companion are still at large.

(By the Associated Press) OKMULGEE, May 17.—Important clues which it is hoped will lead to the capture of the two men who shot and killed policeman Bob Burren and wounded Police Detective Spence, last night on East Sixth Street, when the two officers attempted to stop them as they were fleeing from the residence of Jay Harrison, where they robbed Mr. and Mrs. Harrison of \$6,000 worth of diamonds and jewelry, were being followed this morning by police and county authorities.

(By the Associated Press) OKMULGEE, May 17.—More than a score of automobiles loaded with heavily armed officers and citizens are conducting a search throughout this section of the state and authorities in all parts of eastern Oklahoma are cooperating with the Okmulgee authorities, in the efforts being made to trail and capture the bandits. The two bandits and a woman left Okmulgee about eleven o'clock Monday night in a taxicab, the police learned early today, and they have apparently abducted the taxi driver.

One Killed; One Wounded. Mrs. W. H. Murdock and daughter leave today for Okmulgee, where her brother, M. E. Spence, is in the local hospital suffering from gun shots received last night about 10 o'clock. He and his partner who was killed instantly were trying to arrest a burglar who was burglarizing a garage. Mr. Spence is a night policeman.

AN INVITATION

To the Editor of the News: Please extend a cordial invitation to the citizenship of Ada to attend the Commencement Exercises to be held at the Normal school tomorrow morning at 10:00 o'clock. We are very anxious to have a large representation of citizens present. Dr. Ira Hilton Jones, Professor of Chemistry at the A. & M. College at Stillwater will deliver the Commencement address. Dr. Jones is one of the most capable scientists in the country. In addition, he is one of the ablest speakers in the entire southwest. Last year he was the head-line on the Redpath-Horner chautauqua circuit, and will be with the Redpath-Horner people again this year. His eminence as a scientist and his ability as a speaker of rare power insure an excellent address—one that will be well worth hearing. There will be fifty-eight graduates from the life diploma course, one from the Bachelor's Degree course and sixteen from the preparatory department. At the close of the summer session there will be another graduation which will probably bring the number of degree graduates up to four, and life diploma graduates up to eighty. The faculty and the graduates will greatly appreciate the presence of all who are interested in education at this commencement tomorrow morning. Respectfully, A. LINSCHMEID.

WAR DEPARTMENT BEING CRITICIZED

Storm of Protest over the Publication of Slackers' Names.

(By the Associated Press) WASHINGTON, May 17.—The war department issued a statement today expressing surprise at the constant fire of drastic criticism which followed its action in publishing full lists of deserters from the draft as shown by the department's records. Despite the urgency of patriotic societies and relatives of men, who did their full duty and who in many cases gave up their lives in the service, that the slacker list be given out. The statement said: "It is not insisted that the list should never have been published at all until the department was absolutely convinced that there appeared thereon the name of no man who actually rendered either naval or military service during the war."

"As a matter of fact the war department would have been entirely warranted in including in the public lists the names of men charged with desertion in the draft, the name of every registrant who failed to report for military service at the time and place set aside in the notice sent to him by his local board, whether or not he subsequently served honorably in the army, navy or marine corps in the United States, or military forces in the allied powers." Under the law every person whose status is that of a deserter from the draft, within the terms of the above definition, is a deserter from the draft, regardless of any subsequent honorable service which he may have rendered. The department undertook gratuitously to check and recheck the records of the 489,000 names originally carried on the draft deserter list and reduced the list to 155,000, the statement said, and thus far but four cases have officially developed where names of men were wrongfully carried on the list. The department asserted that in three of these cases the claim is made that the men themselves were at least partially responsible.

Irving School Boys Cause Trouble; Lady Calls City Police

There seems to have been a little trouble by a few patrons of the Irving school one evening last week, when some of the school boys were playing on the grounds, causing one of the lady residents adjoining the yard to call the city policemen. Another resident of the same school wishes to make a short statement in behalf of the boys. It is stated in his letter that the boys were playing, as boys will, when a gentleman told them that the police had been notified of their playing and that it would be well for them to leave. He further states that the lady, who had a son of her own, had called him to the house, so that the officers would not get him. However such things are disagreeable and unpleasant and the writer is of the opinion that if the lady had asked the boys to make less noise they would have done so. This is the first time anything of this nature has ever happened and it is hoped that it will not occur again. The people of this school have always cooperated with each other for the welfare of the children.

Poles Ready to Retire.

(By the Associated Press) OPPELN, Upper Silesia, May 17.—The Polish executive committee in Silesia has telegraphed to the inter-allied commission here, stating the insurgents are ready to retire sufficiently to insure immediate cessation of hostilities with Germany, provided the ground they abandon is occupied by allied and not by German troops. The Polish committee in its message admits the insurgents may have exceeded the limit of prudence in their actions.

WHAT IS OLD AGE?

The act of the Postmaster General, abolishing the compulsory retirement of postoffice employees at the age of 62 for women and 65 for men shows the new attitude toward age. It used to be that men and women were as a rule really old in their sixties. Recent experience, particularly in the war, has given striking proof of the vigor and effectiveness that may be found in the seventies and eighties.

That employees are incapacitated for useful service at the ages heretofore specified in the Postoffice Department is now merely a false tradition. To youth, the sixties are really old. To millions of their elders, the sixties are only the latter part of a vigorous middle age. A person is not old nowadays until he is too old to do his usual work, and that age limit, like the actual death limit, has been advanced remarkably within a generation or two.

Medical science has done much along this line. More sensible living has done much. So has more sensible thinking. The typical American now expects as a matter of course to be active and useful until he is about 70, and his continued activity with its attendant state of mind tends to keep him up, to that point or beyond. On the other hand, the retired man seldom lasts long. In America, at least, he usually feels that he has lived his life, and with nothing creative left to live for, he soon ceases to live.

GERMANY'S ONE FAIR OFFER

The irritation shown by France and England at the offer of German labor and materials for the reconstruction of the devastated areas in France seems unreasonable.

It is easily enough understood, as a human fact. France would naturally prefer to use her own unemployed labor for that purpose, and to stimulate her own lagging industries with orders for the requisite material; and England would gladly supply the material for a money consideration.

But there's the rub. The Allies themselves cannot undertake the project without a huge supply of money for that purpose, and Germany does not seem able to supply the money.

It is a significant illustration of the same old problem that has bobbed up at every step of the war settlement. The Allies want gold, and there is not enough gold in Germany, nor in all the world, to satisfy their desires. If Germany is to pay adequately, she must pay primarily in goods or services, just as the Allies must if they are to repay their debt to the United States. Here is a case where Germany, after long evasion, has made an apparently sincere offer. How can the Allies afford to turn it down?

Admittedly such an arrangement would help German industry to get on its feet and would be a big step in the restoration of Germany's foreign trade. But what hope is there of Germany ever paying her war obligations to the Allies, and of the Allies accordingly meeting their own war obligations, unless Germany is enabled to earn the means of payment by rebuilding her industry and trade? How can the Allies keep Germany crippled without crippling themselves.

The federal prohibition commissioner rules that no doctor may prescribe for a patient at one time more than 4 7-8 gallons of beer or three gallons of wine. That is surely enough either to make a sick man well or a well man sick.

"Judging from recent experience of the railroads, the most effective way to put the liquor traffic out of business would be to try and operate it under government control," says life.

Gardeners are told to have the surface of the soil frequently stirred and this is attended to for them by the boys who run across the garden plot after their baseballs.

Seems queer that a lot of these people who are able to save billions in managing the railroads and the industries are still working for such low pay themselves.

Meanest man yet was reported the other day. He is a fellow who would not let his boy mow the lawn because it gave him such a vigorous appetite.

The Girl Next Door says she's opposed to the More Daylight plain since it delays the hour of dusk and hasteneth the moment of parting.

Do you remember the old-fashioned drug store that sold drugs instead of safety razors, hammocks, golf balls, toys and quick lunch?

French slogan—"German ducats!" German slogan—"Germans, duck it!"

The Evening News of the Press

Miami News: If Henry ford jitters the railroads it is to be hoped that each train will be equipped with a self-starter and shock absorbers.

Shawnee News: John Fields is already beginning to fret about this year's corn crop. What's the use when it is pretty nearly an accident when you get a corn crop anyway?

Okemah Ledger: Quite a number of Oklahoma City job printing plants are closed because of a strike of pressmen who are demanding that 44 hours constitute a week's work. The average country editor finds 90 to 100 hour week too short to accomplish all he has to do.

Capper's Weekly: Among those opposing daylight saving in Kansas City are all the women's clubs, organized labor, the street car men and most of the industries. The Kansas City newspapers speak of daylight saving as doomed. It always is when the people get a whack at it.

Oklahoma Federationist: The wage-workers are finding it difficult to follow the various brands of advice given them so freely these days. A few months ago the cry was produce more and save more. With millions out of employment we are now told to buy more. The dispensers of free advice, however, fail to say how the workers can spend more when many have no job and when the organized employment interests are engaged in a drive to reduce wages.

GO TO THEATRE

At the McSwain
Two fat men have prepared a rare laughing treat for you at the McSwain Theatre today and tomorrow. One of them is Roscoe Arbuckle, the famous heavy weight screen star; the other is Irvin S. Cobb, the well known Saturday evening post humorist. Cobb wrote "The Life of the Party," which has been transformed to the screen as "Fatty" Arbuckle's first full length feature picture. It's a laughing hit from start to finish.
Come and enjoy the fun.

At the American
Domestic difficulties and marital mishaps have long been a favorite subject with the men who make the novel and the drama. Big moments in the home life of a man or woman always have a popular appeal. Things that mirror their own ideas and emotions catch the fancy of the average theatre-goer.

Such a drama of realism is "Know Your Men," a William Fox production in which Pearl White is starred and which will be the feature attraction at the American Theatre next Thursday. "And If So," the picture, is responsible for this intensely interesting play. It is a play which contains many little touches which have caused "Over the Hill" to enjoy a long and successful run on Broadway, New York City.

Miss White enacts the role of Ellen Schuyler, a wealthy girl. With the financial ruin of her father and desertion by the man she loves, her fortune is also wiped out. In gratitude to another man who sticks by her, she weds him. But smouldering in her heart is her first love, that needs only the reappearance of the man to flame anew.

When this occurs comes another tragedy, for Ellen is turned from her home when she confesses to her husband that she still loves this man. Still more drama follows when her old sweetheart wishes her to return to her husband while divorce proceedings are pending. The last blow brings to Ellen a realization of her husband's true worth and a reconciliation follows.

"SWAMP CHILL TONIC DOES THE WORK!"

Arkansas Merchant Highly Praises Famous Old Remedy

J. W. Mustain, Dealer in General Merchandise, Old Grand Glaize, Ark., sells a lot of Swamp Chill and Fever Tonic. The reason he sells a lot is expressed in a letter he recently wrote us, which says: "Swamp Chill Tonic sure does the work. I certainly want to thank you for your fair dealings." John C. Rogers, Center, Tex., says: "I have sold your Swamp Chill Tonic for years and it is my favorite tonic. I always recommend it, because of its fine laxative properties." Dealer C. E. Miller, Bernice, La., says: "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill Tonic to one of any other kind. After a customer has used it once he or she will use no other kind." Thousands of other dealers in many different towns and cities strongly recommend Swamp Chill Tonic to their customers as the very best malaria remedy on the market. 60 cents a bottle—get one today. Eisenberg Cigar Co., Miami, J. A. Robinson, B. A. White, R. H. Eisenberg, Miami, Capital \$5,000.

BATTLE FLAGS WILL BE PUT ON EXHIBITION AT CAPITOL

(By the Associated Press)
OKLAHOMA CITY, Okla., May 14.—Decorated battle flags and colors carried by organizations composed in whole or in part of Oklahoma troops who served in any arm of the land or naval forces during the world war or any other war will be preserved and placed in the mail galleries of the state capitol, under a bill passed by the extraordinary session of the legislature.
For the purpose of carrying out the provision the sum of \$1,500 was appropriated to build suitable cases in which to preserve these flags.
The bill declares that this provision is made that "these priceless" relics of the heroic service of Oklahoma loyal sons in the greatest war of all times may be open to public view as a perpetual reminder of that spirit of service and sacrifice and to serve as a lesson of loyalty and love of liberty which Oklahoma's courageous sons demonstrated so proudly on the historic battlefields of Europe."

I'd walk a mile for a Camel

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.

R. J. REYNOLDS Tobacco Co. Winston-Salem, N. C.

Camel

"HOT" STORAGE MAY TAKE PLACE OF "COLD" STORAGE

MORGANTOWN, W. Va., May 17.—"Hot" storage as opposed to "cold" storage for many things affected by insects, but not by heat, may be realized soon if the experiments of Professor L. M. Peairs, of the department of entomology of the University of West Virginia, prove entirely satisfactory. Professor Peairs has met with a great degree of success in showing the practicability of hot storage for such articles as carpets, clothing, particularly woollens and furs, as well as cereals, dried fruit products and other materials unaffected by dry heat.

Professor Peairs has used grain and carpet beetles and other insects of a similar nature in demonstrating that they do not develop at a constant temperature of 100 degrees Fahrenheit, and in some cases at 95 degrees. Even such forms of insect life as could endure higher temperatures could not survive a constant temperature of from 95 to 160 degrees he said. Thus, he has fore they got educated.

concluded that hot storage with a uniform and constant temperature of 100 degrees would prove more effective than cold storage in many cases.

Sugar Output Is Short.
(By the Associated Press)
HONOLULU, T. H., April 2.—(Delayed)—Hawaii's output of sugar for 1921 is behind schedule, according to experts in sugar circles and steamship men whose business it is to transport the raw product to the mainland. On the first of April the Hawaiian sugar output was 100,000 tons behind the shipping schedule of the same date last year, according to estimates.
The winter pineapple pack also is below the usual figure and the steamship companies are anticipating heavy congestion when the sugar shipments begin to pick up and the big pineapple season gets into full swing.

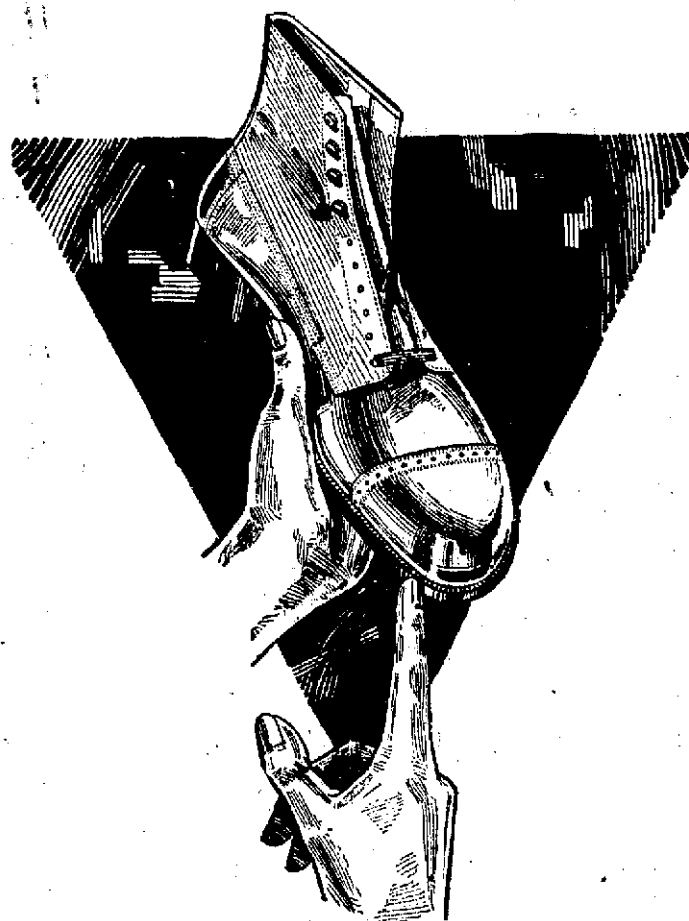

But, Mr. Edison, if they are ignoramuses after going through school imagine what they were before they got educated.

COURT OF HONOR TO BE BUILT FOR WAR HEROES

(By the Associated Press)
URBANA, Ill., May 17.—As a memorial to the 173 men from the University of Illinois who lost their lives in the world war, a Court of Honor will be built in the new athletic stadium to be built with a \$1,500,000 fund now being raised. There will be 173 columns in the court—one for each of the university's heroes.

Already various campus organizations have sponsored more than half of the columns, pledging \$1,000 each as their contribution to the memorial. Those organizations which lost men during the war will dedicate their column to the memory of their own soldier dead.

One of the unique sponsors of a column is the Field Artillery Regiment, R. O. T. C., composed of men from many organizations and some from none at all. The regiment plans to dedicate its column to some former university artilleryman who was not a member of any camp or organization.

Edmond "Foot Fitters" Fit All Feet

Here is the biggest selling single style in the world. It's our "Foot Fitter" No. 1—known all over the world as "Tom"! These shoes fit the feet all over like the paper on a wall. They fit roomily in the forepart and firmly over the instep and in the instep arch

"FOOT-FITTERS" fit snugly at the heel seat. They hug without squeezing. No pinching! They give the foot a firm tread and the chance of flexing naturally in walking. They "support the foot in the arch like a doctor's bandage".

Price \$7.00

SOCIETY

Beyond My Window.
Beyond my window in the night
Is but a drab inglorious street.
Yet there the frost and clean star-
light,
As over Warwick woods are
sweet.

The crocus works among the mold
As eagerly as those that crown.
The Warwick spring in flame and
gold.

And when the tramway down the
hill
Across the cobbles means and
rings.
There is about my window sill
The tumult of a thousand wings.
—John Drinkwater.

Mrs. Harman Rhee, who has been
visiting her parents at Dorchester,
Texas, returned to her home here
yesterday after a ten day absence.
She was accompanied by her little
sister and brother, Alva and Jack
Clary, who will visit in Ada for a
short while.

M. J. Norrell will be among the
Dallas boosters to visit the city
today. His sister and brother live
at this place. Mrs. Lara Skinner
and Paul V. Norrell. He is heading
a wholesale merchants organization
of that city.

Mr. and Mrs. A. C. Price and
daughter, Mary, who have been in
the city for the past week visit-
ing Mr. and Mrs. C. D. Price, re-
turned to their home in Denton,
Texas yesterday.

Miss Nola Wilbanks of Lamar,
Okla., arrived in the city yesterday
to spend a few days visiting her
friend, Miss Inez Bennett, and other
friends who are attending the
Normal here.

Miss Doris Sandusky, who has
been attending the Normal for the
past school year, will leave this
week for her home in Morris. She
will teach at that place next year.

Miss Nell McLaughlin is visiting
her sister, Mrs. Leo Bell, in Sedan,
Kan., this week.

Misses Jewell and Jennie Rich-
ardson of Allen were in the city
yesterday visiting friends.

J. R. Bingham of West 6th street
is suffering with a severe attack
of lumbago.

Miss Peckie Davis of Chickasha
is visiting her friends, Misses Na-
oma Coon and Bell Dronough, this
week.

Miss Anna Smith of Wirt, Okla.,
is returning to her home at that
place after attending a successful
term at the Normal.

Woody Crowder who has been in
the city for several days visiting
friends left today for his home in
Tishomingo.

Mr. and Mrs. K. G. Allen left
this morning for their home in
Sherman, Texas, after spending sev-
eral days here visiting.

Mediamus O. H. Jenkins of this
city and Lillie Horton of Center,
have just returned to their home
at that place after a visit with a
relative at Lehigh.

Miss Gladys Kerns of Oklahoma
City was in the city over the week-
end visiting relatives and friends.
She returned to her home at that
place yesterday afternoon.

Announcements have been receiv-
ed in the city stating that Otto
Lindsey had been married to Miss
Florence Marie Wilsey of Denver,
Colo., on May 8. He is well known
in this city.

gressing nicely and will be complet-
ed at an early date.

Miss Flossie Benson of Holden-
ville was in the city between trains
yesterday shopping and looking af-
ter other business matters.

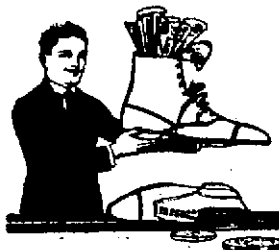

Mr. and Mrs. J. L. Covington were
in this city yesterday afternoon for
a short time visiting local business
friends, returning this morning to
their home in Allen.

Small school boys will soon be re-
leased from the duties of school.
Then what a time they will have,
all those things that they have
longed for all the year will be made
possible.

Mrs. Jack Kilgore of Shawnee
was a business visitor in the city
yesterday and today. She went from
here to Holdenville, where she will
spend a few days on business before
returning to her home in that city.

North Francis avenue was graded
again yesterday and put in a first
class condition. There are several
places on this street that have made
it hard for cars to pass. Now how-
ever most of them have been elim-
inated.

E. C. Wilson of the Normal school
will leave this afternoon for Okla-
homa City where he will attend the
meeting of Oklahoma librarians. Mr.
Wilson has charge of the Normal
library here and will address the
meeting while there.

MEDICAL MEN HOLDING MEET

Five Hundred Members
Gather at McAlester for
Annual Convnetion.

(By the Associated Press)
McALESTER, Okla., May 17.—Approximately 500 members and delegates of the Oklahoma Medical Association opened their annual convention here today in the First Baptist church, organization headquarters. The convention, which will last 5 days, is the second session of the association to be held in the eastern part of the state since the society was formed a number of years ago.

In connection with the program to be carried out by the members of the profession, various displays of medical instruments, hospital supplies and electrical appliances of all descriptions have been put on exhibition by manufacturers of medical accessories, each with an accredited representative of their plant present to explain to the visitors the qualities of the products.

The schedule today called for an address by Dr. G. A. Boyle, of Enid, president of the association, who succeeded the late Dr. J. W. Duke, of Guthrie. A welcome address by the mayor and invocation was to precede the annual address of the president. Tonight there is to be an open meeting for the general public, at which time an eulogy to Dr. Duke will be read by Dr. LeRoy L. Long.

Today's convention hours were taken up by registration, assignment of doctors and the holding of clinics, given by Pittsburg county physicians at the hospitals for the visiting doctors.

The program tomorrow will be devoted to scientific papers and the discussion of scientific subjects as they affect the medical profession. At this time reports will be made by physicians prominent both nationally and locally, touching upon all the latest devices that have come to advance the medical age.

Wives and friends of McAlester physicians will hold a separate entertainment and reception in the afternoon for the ladies of members visiting the convention.

The third day of the convention is given over to the election of officers for the ensuing year and the selection of the 1922 convention city. The house of delegates of the association will cast the vote that chooses its officers for 1922.

Dr. C. A. Thompson of Muskogee, secretary of the association, was on the program for an address and report of the society. Dr. Thompson is also editor of the State Medical Journal. Dr. T. T. Morris of Crowder, third vice president, will follow Dr. Thompson with an address.

The state association is divided into six districts, similar to the congressional sections. From these districts, five scientific sections are made up, each presided over by its own chairman.

Dr. R. M. Balyeat of Oklahoma City, is chairman of the first section and Dr. H. T. Price of Tulsa, secretary. Dr. R. G. Boland, Oklahoma City and Dr. E. L. Cohenour, Tulsa, respectively president and secretary of the second section. Dr. P. P. Nesbit of Muskogee and Dr. Victor M. Gore, Clinton, president and secretary, district three; Dr. L. M. Westfall of Oklahoma City heads district 4 and Dr. William Taylor, also of Oklahoma City, is chairman of section five.

ANNUAL 500 MILE MOTOR RACE WILL BE GREAT AFFAIR

(By the Associated Press)
INDIANAPOLIS, May 17.—Drivers and machines entered in the annual five hundred mile International Sweepstakes automobile race at the Indianapolis Motor Speedway May 30, will be subjected to as close an inspection before the start of the contest as it is possible to make.

Failure to pass the strict physical examination and tests of ability to handle an automobile traveling at the rate of nearly one hun-

dred miles an hour have kept numerous entrants out of the race. After a driver has qualified his car, he is thoroughly examined, especial attention being given to his heart action and eye-sight. Last year one of the country's best drivers was ruled ineligible because of his failure to pass such a test.

To qualify a car, the driver must negotiate four laps, or ten miles, at a rate of eighty miles an hour or better. The action of the machine as it races into the turns, said by drivers to be the most dangerous in the country, and the steadiness of the pilot in this test, also come in for consideration of the officials.

As a final precaution against accident, front axles, including all steering connections, must have been replaced two days before the race. The final touch, just prior to the start, is the brake test and the sampling of the gasoline to prevent use of ether or picric acid being used. No car may exceed 183 cubic inches piston displacement.

These precautions have resulted in there being comparatively few deaths from accident at the speedway in the eleven years of its existence.

Japan Denies Reports.
MANILA, P. I., April 1.—(Delayed)—Official denial has just been made of many recent reports that Japanese had landed fourteen high-powered guns at Davao, Island of Mindanao. The provincial commander of the Philippine constabulary, after an investigation, reporting to Brigadier General Rafael Crame, chief of the Philippine constabulary said:

"With reference to the fourteen large cannon reported to have been found in the interior of Davao, I have found none, except a few old obsolete latukas (Moro brass cannon) of 1875 calibre now being used as park decorations. Some of these were found by Spaniards in the hands of Moros in 1848 when Davao was conquered. Others were brought to the place afterwards."

Have your summer frocks pleated or hemstitched. Buttons of all designs made to order. Ada Hemstitching Shop, 120 S. Broadway, 5-9-11.

GUARDSMEN WILL CAMP AT FT. SILL

Annual Encampment of More Than Two Thousand Men in June.

(By the Associated Press.)

OKLAHOMA CITY, Okla., May 14. —Members of the Second and Third regiments of the Oklahoma National Guard, 120 officers and approximately 2,000 enlisted men, will hold their annual encampment on the military reservation at Fort Sill, June 5 to 19, inclusive, under General Orders No. 11, sent out today by Adj. Gen. C. F. Barrett to all commanding officers.

Confirmation of estimates made by the adjutant general for the encampment recently arrived from headquarters of the Eighth Corp and providing for a fund of \$144,169.21 to pay expenses, mileage and pay for all officers attending the encampment.

The artillery units of the national guard will hold a separate encampment from that of the infantry regiments. According to General Barrett the artillerymen will train in three periods, from July 10 to 24; July 24 to August 7, and August 7 to 21.

An advance guard composed of 4 officers and 40 enlisted men will arrive at the reservation two days in advance of the infantrymen to prepare camp. A similar detail will remain for a like number of days after the encampment to police up. Simultaneously with the announcement General Barrett said that invitations have been sent to every member of the Oklahoma legislature asking them to pay a visit to the encampment as guests of the national guard and to inspect the troops as they present themselves in assumed war conditions. In this connection General Barrett pointed out that the state does not wish to stand in any part of the funds that provide for the encampment, everything being paid by the federal government.

A transport convey that will resemble the long stream of motor equipment that used to pour steadily from the base ports of France across the interior to the front will leave Oklahoma City two days in advance of the date of encampment. General Barrett announced. This convey will consist of approximately 40 trucks, ambulances and official

A. O. U. W.—Lodge No. 40 meets first and third Tuesday nights of each month at Ada Business College.—J. B. Emory, secretary.

touring cars, the greatest array of motor transportation and equipment the national guard of Oklahoma has ever boasted, the general said. In this respect it was also explained that the guard itself is better equipped for the encampment this year than ever before and that instead of depending upon reservation property to equip the men, this year the guard will be ready for training the moment it arrives.

The schedule of drill at the camp will follow the lines provided by the regular army. Enlisted men will receive the basic pay of \$1 per day for each day in camp and the officers' pay will be rated correspondingly to that in the regular service. Due to the short time of the encampment the program will be even more intensive, General Barrett says, and will touch upon every phase of military training from drilling to actual war maneuvers.

Uniform and equipment to be carried by both the men and officers will be the standard field service. Each unit, under the order, will proceed to Fort Sill from its home station. Company commanders are instructed to prepare their subsistence accounts for travel both ways. Each man is entitled to 53 meals at a cost of approximately 55 cents per day.

No officers school will be held this year as has been the custom in previous years, General Barrett stated. The usual elimination shoot will be held, however, for the purpose of picking two rifle teams from the guard to enter the national shoot at Camp Perry, Ohio, later in the season.

Funds for the encampment are divided into \$105,886.29 for the infantry training and \$38,282.92 for the artillery camp in July and August. Of the combined total cost \$116,419.21 will be distributed to members in payment for their attendance.

Batteries "A" of the light and heavy artillery units of the guard, located at Wewoka and Enid, respectively, will train the first period from July 19 to 24. Batteries "B" of the two branches, located at Pittsburgh and Muskogee, will camp July 24 to August 7, and Batteries "C," "D" and "E" and members

of other batteries that are not complete at the time of training, will camp August 7 to 21. Machine gun companies, regimental and battalion headquarters companies, howitzer companies and sanitary detachments will take the organizational equipment pertaining to their respective units, according to orders.

We will appreciate it if you will call us about any empty ice cream packers that you may have, thank you. Southern Ice & Utilities Co. Phone 244. 5-16-21d*

Frisco Passenger Station Robber of \$221.84 Last Night

The Frisco passenger station was robbed of \$221.84 between midnight and 1:00 o'clock this morning while W. D. Fine, the night ticket clerk, was eating lunch at a nearby cafe.

The office was entered through a front window, the night latch of which was manipulated after a section of broken glass had been removed. A small pad lock was twisted from the cash drawer and all of the money in the till was taken.

The night police and the sheriff's office were notified by Mr. Fine immediately after the robbery was discovered, but their efforts to find the thief have so far been unsuccessful. Nothing but the money has been missed from the office and apparently the thief made no effort to open the office safe.

NATIONAL MEET WILL BE HELD AT CHICAGO IN MAY

CHICAGO, May 17.—Judging from the early list of the entries, the University of Chicago inter-scholastic track and field meet this year will be more national in character than ever. The meet will be held Saturday, May 28, and a record breaking entry list is assured.

Invitations have been extended to every high school and academy of importance in the country. Entry blanks were sent to 4,500 high schools and more than 800 academies. The first individual entry was from M. Humphrey of the Higginsville, Mo., high school, who will compete in the 100 and 220 yard dashes. Teams representing schools from the Atlantic to the Pacific have sent in entries and star athletes will come on from as far west as California.

The star Cedar Rapids high school team of Cedar Rapids, Ia., is one of the first to enter. With a splendid combination, the Cedar Rapids team won both the one-mile and the two-mile interscholastic titular relays at the University of Pennsylvania. In the one-mile event, the team made a time of 3:37 2-5 and in the two mile, a time of 8:35 2-5. The Cedar Rapids team also won the same events at the Drake Relays.

For the first time in its history, this year's interscholastic will include a championship meet for academies. Many of the leading academies of the country are daily showing their approval of the innovation. The Culver Military Academy of Culver, Ind., and the Shattuck school of Faribault, Minn., will enter.

Several special features are being planned for the inter-scholastic week. On Thursday and Friday before the meet the "Big Ten" tennis players will compete for conference honors. On Friday and Saturday there will be automobile sight seeing trips and a boat ride on Lake Michigan. The meet takes place Saturday afternoon, followed in the evening by a banquet, presentation of prizes and an entertainment.

GRADE SCHOOLS PLANT ELM TREES IN SCHOOL YARDS

(By the Associated Press)
DES MOINES, May 16.—Each of Des Moines fifty-three grade schools has planted a native elm tree. The trees were the gift of Senator Lafayette Young, former United States senator and publisher of the Des Moines Capital, as the initial step in a large ground beautifying campaign fostered by The Capital, in conjunction with the City Garden Commission of the school board.

No prizes were awarded in the campaign, as it was purely educational. In addition to planting of the trees the children in many instances went to the woods near the city and dug native shrub plants which they planted on the school grounds.

The school ground work went into every department of the schools. The art department pupils drew the landscape plans, submitting their plans to an expert landscape architect for final approval. After the plans were approved the youngsters went to the woods after the necessary shrubs and plants, to carry out the plans.

At some of the schools the soil is poor. To overcome that the children carried rich loam from considerable distances, using pails and boxes. The trees, shrubs and flowers

or borders were planted in this "imported" soil.
When the Lafayette Young trees were planted a landscape expert talked to the children, explaining to them the proper method of tree planting, pruning, etc. As a result 17,000 grade school children of Des Moines were given information on tree planting and culture, and their interest in native plants aroused.

The school ground beautification program culminated in an appropriate service Arbor Day when the children read poems and sang spring songs. The trees presented by Mr. Young were dedicated and a bronze marker placed on each. Protective fences have been erected around the trees by the children.

EACH STUDENT IN VOCATIONAL TRAINING WILL GET VACATION

(By the Associated Press)
CHICAGO, May 17.—A vacation of at least two weeks for every vocational training student in the Chicago district is the object of plans now being perfected for an ex-service men's summer camp at Fort Sheridan. The camp is being engineered by the Federal Board for Vocational Education. The district comprises the states of Illinois, Wisconsin and Michigan.

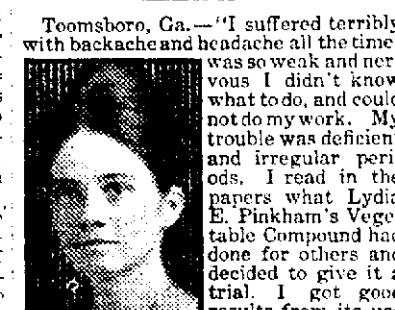

The use of the camp at Ft. Sheridan was secured through Major General Leonard Wood before his departure for the Philippines recently on a special mission. During the general's absence, Col. George E. Lovell will act as his representative.

The Ft. Sheridan site has been used for many years as a camping and training center and offers every facility for recreation. The district contains 8000 men who are receiving training through the government board and all are entitled to take advantage of the summer vacation camp.

The Hobart electric company is planning the installation of a new oil engine in its plant there.

SO WEAK SO NERVOUS

How Miserable This Woman Was
Until She Took Lydia E. Pinkham's Vegetable Compound

Toomsboro, Ga.—"I suffered terribly with backache and headache all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C.F. PHILLIPS, Toomsboro, Ga.

Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of the nervous prostration, nervous dependency, "the blues," irritability and backache arise from some displacement or derangement of a woman's system. Mrs. Phillips' letter clearly shows that no other remedy is so successful in overcoming this condition as Lydia E. Pinkham's Vegetable Compound.

Training School Closes Successful Session This Week

The training school of the East Central State College has just closed one of the most successful terms in its history and has had one of the heaviest enrollments also, as each department has been crowded to capacity. Many of the students who have been attending during the spring term are to attend this summer.

Several new features have been added to the school this year, which has done much good for the pupils, putting the training school on an equal basis with the regular ward schools. Of these departments the art class has attracted much attention. The students have shown a great interest in this work, which has been under the supervision of the Normal art department.

Other features that have been successful are the manual training and Home Economics classes and the physical training class. Music has also been a leading feature. Each student from the fifth grade up have been given the opportunity to take most, if not all, of the features. With these extra features the school will be able to give the various practice teachers a chance to specialize in the various departments.

The training school has had an average enrollment of 125 students, using 25 teachers each term. All the grades have been above the average and the management

of the school is very well pleased with the showing that has been made. Prof. R. R. Robinson has been the supervisor of the school. Plans are being made to do good work this summer and the school will open at 8 and close at 12 o'clock each day. Most of the higher grades are almost filled but several students in the primary and intermediate grades are wanted.

Freshman Makes Record.

(By the Associated Press)

Northfield, Minn., May 17.—J. "Lefty" Woeck, a freshman at Carleton college, is the latest cologian to bid for no-hit, no-run fame. In a game against McAlester Woeck turned the opposing batsmen back without a hit or a run, passed three and struck out 12 batsmen. In the game against St. Olaf he struck out fourteen and passed two, allowing only three hits.

Woeck is 22 years old. He has played but little baseball, but Coach Claude Hunt, believes he is a "corner." Woeck was a member of the football and basket ball squads.

Wants Championship Match.

(By the Associated Press)

CHICAGO, May 17.—Sailor Freedman, the Chicago lightweight, who is negotiating for a championship match with Benny Leonard July 4, will box two opponents in the meantime. He will meet Johnny Dundee at East Chicago May 30, and Dennis O'Keefe at Kenosha, Wis., May 18. The Kenosha match previously had been set for May 13.

NORMAL NOTES

The cafeteria will be operated this summer and it promises to be a great help to the students.

Prof. Newcomb will deliver the commencement address for the Allen high school at that place Tuesday evening.

E. C. Wilson was in Oklahoma City Tuesday and Wednesday of this week attending a state meeting of librarians.

Many extra teachers will be arriving in the city this week and next to take up their work in the summer session.

Prof. Robinson is billed to deliver the class address at Tupelo Wednesday night and at Sasakwa Thursday night of this week.

Every department of the Normal will be opened for the summer term. Students will be given an opportunity to take the work in any line given by the school.

The business manager of the "Pesagi" has announced that the books will be here Friday of this week. Those who owe some yet on their annual are asked to settle up at once and all others who want one should get in now.

School will close after Wednesday of this week to give the teachers and students time to prepare for the summer term. The summer term will begin next Monday and affairs are rapidly shaping themselves for a good summer session.

In addition to the other extra teachers for the summer session the Normal orchestra will be headed by

Prof. A. L. Fentem of the Ada High school. Those who are interested in this kind of work will not be disappointed as Mr. Fentem is an able instructor in the work. He had charge of the high school orchestra during the past year.

Want to buy a home? Turn to the want ads.

Notice of Reward

STOLEN: Motor motor and radiator cap off Nash car at Normal Monday night; will pay reward for recovery of same.

A. D. COON

WELCOME DALLAS TRADE BOOSTERS

We are glad to form closer business relations with the city of Dallas. It is a pleasure to have you with us and to show you the unexampled resources of this city and community.

ROSCOE (Fatty) ARBUCKLE —IN— THE LIFE OF THE PARTY

A Paramount Picture

From the Saturday Evening Post story by Irvin S. Cobb. If it fails to please, it costs you nothing.

TO-NIGHT

at the
Methodist Church

There will be shown, free to all, a great moving picture entitled,

"Out Of The Christian College"

A thrilling and inspiring picture, showing the wonderful advantages of Christian education.

It shows what the wrong kind of education did for Germany; what the right kind of education will do for America!

FREE! FREE! EVERYBODY COME

THERE is a big difference between Calumet and all other Baking Powders.

First—you see it in the cost. Calumet is sold at a moderate price.

Then—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required.

Next—you notice it in raising quality—in the evenness—lightness and texture of your bakings. They look better—finer grained.

CALUMET BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all-satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit Recipe
4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounding tablespoons of butter or lard, 1/2 cup of milk, 3/4 cup of water. Then mix in the regular way.

Do you realize the Versatility
of BREAD

Of course, you know of its goodness, its wholesomeness and its food value. That is why you serve bread three times a day.

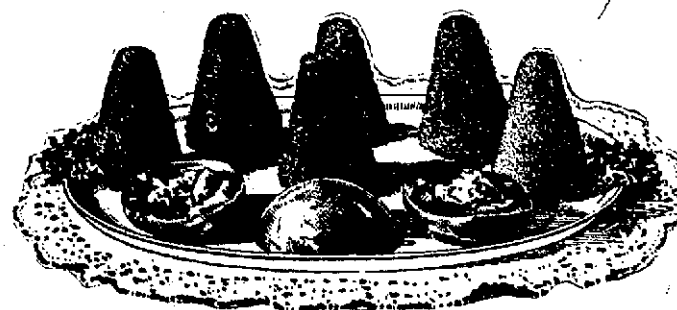

That's why you allow the kiddies to eat as much bread as they want. But, do you know the many dainty dishes that can be made with bread?

Here is an exceptionally appetizing one:

Bread Coquettes with Peaches

2 cups stale bread crumbs	1 cup milk
1/2 cup blanched and chopped almonds	2 eggs
1 teaspoon grated lemon rind	2 eggs
1 tablespoon lemon juice	1 teaspoon salt
1 tablespoon melted butter	Canned peaches

Put bread crumbs into a basin, add chopped almonds, butter, salt, lemon rind and juice, and milk. Heat this mixture and let boil for a minute then remove from fire. Add yolks of eggs. When mixture is cool, form

into six croquettes. Brush these over with beaten egg whites, roll in fine bread crumbs and fry in smoking hot fat. Serve with the peaches.

Good Bread is the brand to use when trying this delicious goody give your family Bread Croquettes with peaches tonight and enjoy their loud applause.
